

Rahul Saikia

PROFILE SUMMARY

An enthusiastic individual with hands-on experience in developing and implementing an Automatic Vehicle Number Plate Recognition System, reducing manual data entry errors by 20% and increasing recognition accuracy by 15%. Conducted extensive research that optimized system performance, resulting in a 25% improvement in processing speed. Proficient in Python, with a keen interest in data processing and computer skills. Assisted in creating comprehensive project documentation and manuals, ensuring seamless knowledge transfer. Certified in Space Tech Data Analyst and equipped with strong verbal and written communication skills. Eager to leverage my skills in a challenging role.
